

At Penn Labs, we build applications to make people's lives easier at Penn. We understand that you play a big role in helping students adjust to university life and make use of all the school's resources. We hope you can help spread the word about Penn Labs products and to help you, we've put together this guide explaining some of our most popular resources!

In the past, RAs & GAs have played a vital role in promoting our products. Especially in a remote setting, we believe students could strongly benefit from many of our products this upcoming semester. If you have any questions or concerns, please feel free to reach out to contact@pennlabs.org at any time. We welcome all feedback and suggestions and are happy to provide you with as much information as necessary. Thank you so much for your support!

Penn Mobile

Penn Mobile is the go-to resource for information about dining, laundry, booking study rooms, and more. The app is available on the app store for both iOS and Android. With Penn Mobile, students can:

- Browse hours/menus for dining halls, hours for retail dining options
- View their daily class schedule and campus news from the Daily Pennsylvanian
- Check laundry machine availability, including wait times
- Book study rooms in Huntsman, Van Pelt, and more
- Check fitness facilities hours

Penn Course Review (penncourserewiew.com)

Penn Course Review provides quantitative metrics on courses and professors to help students make informed decisions about what classes to take, and who to take them with. Features include:

- View course details, average ratings, and difficulty level
- See all past professors' ratings for a course. Current professor(s) will be displayed with a star.
- Toggle between "Average" or "Most Recent" ratings
- Use the plus sign at the top of the table to choose more metrics to display. (ex. "Recommended for Non-Majors," or "Work Required")

Penn Course Alert (penncoursealert.com)

Want to be in a specific class section but it's already full? Use Penn Course Alert to register for immediate alerts by text or email when a full course opens up. Works for anything—lectures, recitations, or labs. Secure your spot for all the high-demand courses you want!

Penn Course Plan (penncourseplan.com)

Penn Course Plan is the go-to course scheduling tool for Penn students. Allowing you to search through the Penn course catalog and add build out mock schedules, Penn Course Plan lets users:

- Filter search by school requirements, credit units, and course type
- View your course cart alongside the course catalog and mock scheduling tool making planning seamless and efficient
- Import your current schedule directly from PennInTouch
- Compare courses using Penn Course Review data to help make informed choices

Penn Clubs (pennclubs.com)

Penn Clubs is the centralized directory for student groups and organizations. With 600+ club profiles, you'll never have to worry about missing a club fair again. Features include:

- Immediate access to club information, including meeting times, recruiting details, contact information, or general descriptions
- Filter clubs by size, application status, category, school, and other features
- Bookmark clubs that you're a member of or for referencing later

Penn Basics (pennclubs.com)

Similar to Penn Mobile, Penn Basics serves as your personal dashboard for finding information on anything about student living from your desktop. With many exciting features on the way, Penn Basics currently allows users to:

- Search for study spots on or off-campus and hours of operation
- Check laundry availabilities and wait times while working on your laptop
- Monitor campus news, weather, and dining hours
- Rate and review food trucks and stay informed on food truck hours and menus
